### ADMINISTRATOR'S MESSAGE - by Lynda Coghill

Welcome back from the March Break. Since chapel was previously postponed until Wednesday afternoon, we met as a school this morning and started off the day by praying for the Nakkila family and our school community. Although he was only 5 years old, Eeli had a special place in all our hearts and we will miss him dearly. Please continue to pray for the family as they go through this difficult time. Please pray for the teachers and children in our school as the students deal with the loss of their friend.

I am sending home the monthly newsletter today so that we can reflect on the previous month. Students had the opportunity to participate in a variety of special events and extracurricular activities. Valentine's Day, 100<sup>th</sup> Day (for the K- Gr. 2), the chess club, girls' and boys' basketball teams, and speech meet are just a few examples.

Overall, we appreciate the commitment of our school community and members of our staff who dedicate themselves to promote prayer, Christian values, strong academic and co-curricular activities in order to provide a thriving school. Our teachers continuously amaze me when it comes to compassion, dedication and leadership in order to provide the best education for our students. Please continue to lift up our school in prayer.

Children are a heritage from the Lord, offspring a reward from him.  
Psalm 127:3

# Chapel

Mrs. Coghill spoke about and provided an interesting illustration regarding how the Bible instructs us to "Put on the Full Armor of God." Nolan, Daniel, Alec, Makari, Kendra and Tylia, presented a rap to illustrate the concept.

Pastor Josh Darsaut, from The New City Church (Mikayla's dad) talked about how God is trustworthy because He is faithful to do what He promises. Pastor Darsaut, had Jonny role play as Abraham (in the Bible) in order to demonstrate his point.

Jodi Greenstreet returned to illustrate and speak about the miracles of Jesus!

# Basketball Tournaments

# Pasta Day

Red, White & Pink  
Day - Feb. 14

# Grade 7/8 Science Experiments

Mr. Eyre's grade 7/8 Science class took the challenge of "testing the solubility of solutes" by creating their own soda pop. Students brought their own "ingredients" for their flavour. They dissolved their ingredients and created a syrup for the pop.

Mrs. Coghill and Mrs. Hawley were able to taste their interesting "experiments."

Perhaps you would like to taste the creative flavours, brought to you by these innovative scientists! You can choose: Tropical Lean, Soya Sauce, The Soda Pop (Curtis), Galaxy Grape, Punch Pop, Chocomint or Sugar, Sugar, Sugar. In art class the students created interesting logos (the next stage in marketing their creations). **Maybe that is how Coca Cola started!**

# In-School Speech Meet

The students in Grades 1 and 3 presented their poems.

The grade 2s and 4s presented scripture and what it means to them.

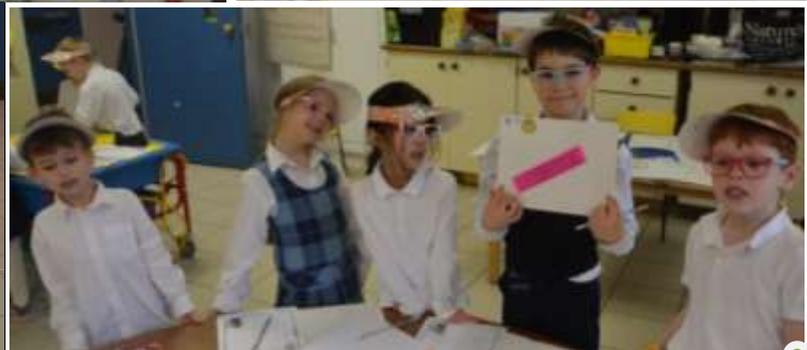

We would like to thank **ALL** of the students from Gr. 1-8 for the great effort in preparing their speeches!

Let the wise hear and increase in learning, and the one who understands obtain guidance. *Proverbs 1:5*

The K – 2 classes investigated important mathematical concepts during their 100th day celebration.

He also measured width from the lower gate to the front of the exterior inner court at 100 cubits to the east and to the north. *Ezekiel 40:19*
